PRODUCT DATA SHEET | TECHNICAL SPECIFICATION

Animal Cadaver Bag / Recovery Pouch BGH6.3

200 µm LDPE Film · 4 Handles · acc. to VDI 3891

MuHeSa Verpackungsmittel & Vertrieb

1. Technical Specifications

Parameter	Specification / Design
Model designation	**BGH6.3**
Base material	LDPE (Low-Density Polyethylene)
Material thickness	200 µm (0.20 mm / 200 my)
Color & opacity	**White opaque (discrete visual barrier)**
Nominal dimensions (W × L)	**100 × 150 cm** **(special animal recovery dimensions)**
Load capacity	up to 70 kg (load limit)
Carrying feature	4 punched-out handles with wooden reinforcement
Closure system	curved C-zipper (barrier-free recovery)
Bottom construction	standard design, unreinforced
Fluid barrier	fluid-tight heat-sealed
Cremation compliance	combustible acc. to VDI 3891 (tested chlorine- & PVC-free)
Included accessories	1 pair of disposable gloves enclosed per pouch

Fig. 1: Model BGH6.3with C-zipper & 4 carrying handles

2. Material Expertise: PE Film & Outdoor Functionality

Tear Resistance & Load Capacity

• Load capacity up to 70 kg

Manufactured from durable polyethylene film (PE). The tough film construction reliably withstands mechanical stress in rough terrain and provides dependable tear resistance when handled properly.

C-Zipper & Handling

• Generous opening

The curved C-zipper allows wide opening of the flap for swift placement of animal carcasses. 4 integrated die-cut handles enable safe and effortless carrying by two persons.

Combustible & Eco-Friendly

• Chlorine- and PVC-free

Pure polyethylene incinerates cleanly with minimal residue into carbon dioxide and water during thermal recovery. No harmful chlorine gases are released, making the pouch ideal for pet and animal crematories.

3. Fields of Application & Practical Advantages

Target Groups & Application Areas:

- **Hunting, forestry & wildlife management:** hygienic recovery of fallen wildlife and wild boars
- **Veterinarians, animal clinics & shelters:** dignified transport and secure containment
- **Pet crematories & animal mortuary services:** pollutant-free and low-residue cremation
- **Road maintenance services, fire brigades & police:** clean removal of roadkill and wildlife accident carcasses

Design Features in Detail:

- **Compact dimensions 100 × 150 cm:** compact, wide format – ideal for wild and domestic animals.
- **4 punched-out handles:** integrated handle holes with wooden reinforcement for ergonomic lifting and loading.
- **C-zipper:** circumferential track for barrier-free and swift loading.
